ICANN,

I was recently made aware of the Monthly Registry Reports that are made available on your website (<http://www.icann.org/en/resources/registries/reports>). I find this report to be very helpful, but would like to request further information. I would like to have a report that includes the new domain names that were added during the report period. If there is not an available report with this information, would you advise me on the proper way to go about requesting this information?

Thank you,

**Kelsey Britton**
