

Registry Services Evaluation Policy (RSEP) Request

March 29, 2018

Registry Operator

KNET Co., Ltd.
4, South 4th Street,

Zhongguancun

Haidian District
Beijing,

Request Details

Case Number: 00878019

This service request should be used to submit a Registry Services Evaluation Policy (RSEP) request. An RSEP is required to add, modify or remove Registry Services for a TLD. More information about the process is available at <https://www.icann.org/resources/pages/rsep-2014-02-19-en>

Complete the information requested below. All answers marked with a red asterisk are required. Click the Save button to save your work and click the Submit button to submit to ICANN.

PROPOSED SERVICE

1. Name of Proposed Service

Real Name Verification

2. Technical description of Proposed Service. If additional information needs to be considered, attach one PDF file

In order to comply with applicable local law and policies, 网址(xn-ses554g) Registry seeks to implement real-name verification (RNV) on registration to ensure it is correct. The registrations which do not pass the RNV would be abusive under local policies.

RNV involves placing a relevant new domain name into "serverhold" status until the registry can verify that the WHOIS information provided by the registrant is correct. "Serverhold" status is removed once this information is verified. The "serverhold" status remains if the information is not verified.

CONSULTATION

3. Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?

We consulted with our registrars and technical experts at registry service provider who has already implemented these services. All consultations were positive.

3a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?

N/A

3b. Were consultations with gTLD registrars or the registrar constituency appropriate? Which registrars were consulted? What were the nature and content of the consultation?

We consulted registrars about this service. They all support it.

3c. Were consultations with other constituency groups appropriate? Which groups were consulted? What were the nature and content of these consultations?

No.

3d. Were consultations with end users appropriate? Which groups were consulted? What were the nature and content of these consultations?

No.

3e. Who would endorse the introduction of this service? What were the nature and content of these consultations?

National governments that wish a registry to comply with national law are likely to endorse this service.

3f. Who would object the introduction of this service? What were (or would be) the nature and content of these consultations?

No party has any legitimate reason to object to the introduction of this service.

TIMELINE

4. Please describe the timeline for implementation of the proposed new registry service.

As soon as possible.

BUSINESS DESCRIPTION

5. Describe how the Proposed Service will be offered.

A relevant new domain name into "serverhold" status until the registry can verify that the WHOIS information provided by the registrant is correct. "Serverhold" status is removed once this information is verified. The "serverhold" status remains if the information is not verified.

6. Describe quality assurance plan or testing of Proposed Service.

Thorough functional tests will be conducted. Our backend has previously implemented this service with no issues.

7. Please list any relevant RFCs or White Papers on the proposed service and explain how those papers are relevant.

There are no known relevant RFCs or white papers on complying with data accuracy requirements under local law.

CONTRACTUAL PROVISIONS

8. List the relevant contractual provisions impacted by the Proposed Service.

None.

9. What effect, if any, will the Proposed Service have on the reporting of data to ICANN.

None.

10. What effect, if any, will the Proposed Service have on the Whois?

None.

11. What effect, if any, will the proposed service have on the price of a domain name registration?

No.

CONTRACT AMENDMENTS

12. Please describe or provide the necessary contractual amendments for the proposed service

Registration validation per Applicable Law

Registry Operator may perform registration validation to comply with applicable local law in a given jurisdiction. The registration validation process, by which the Registry Operator subjects domain name registrations to validation, will be subject to the criteria required by the applicable local law in the jurisdiction. Domain names that are subject to the registration validation process in the subject jurisdiction that do not pass registration validation in that jurisdiction may be suspended, deleted or otherwise updated by the Registry Operator as required by applicable local law.

BENEFITS OF PROPOSED SERVICE

13. Describe the benefits of the Proposed Service.

The Proposed service will allow .网址(xn-ses554g) Registry comply with the local law and policies.

COMPETITION

14. Do you believe your proposed new Registry Service would have any positive or negative effects on competition? If so, please explain.
