Re: Registry-Registrar Agreement Amendment for TLD to add the Temporary Specification for gTLD Registration Data

I attest that <registry operator> is amending the Registry-Registrar Agreement for the TLDs listed in this cover note or as a separate attachment only to include the approved language referenced by the Temporary Specification for gTLD Registration Data.

Attached is the CLEAN and REDLINE Registry-Registrar Agreement to replace or supplement, as applicable, the approved Registry-Registrar Agreement that is attached as an appendix (if any) to Registry Operator's Registry Agreement.

Signed,

Registry Operator
