RE: Workstream 2 Implementation Team (WS2-IT)

Dear CCWG-Accountability Co-Chairs Tijani, Jordon and Thomas,

I would like to thank you for your email communication of 17 November 2019 and for the offer to have the WS2 Implementation Team (WS2-IT) continue its work in supporting ICANN (the Organization) and the community as needed during the implementation phase of the WS2 recommendations.

As previously expressed, and as you're aware, we welcome the continued involvement, so please accept this letter as formal notification. As noted, this would also be in line with current practices for the implementation of review team recommendations. We will continue to keep the WS2 Implementation team apprised of updates.

Sincerely,

Maarten Botterman
Chair, ICANN Board of Directors
