REGISTRY OPERATOR'S REPORT

June 2013

Public Interest Registry 1775 Wiehle Avenue, Suite 200 Reston, VA 20190 www.pir.org

As required by the ICANN/ PIR Registry Agreement (Section 3.1(c)(iv)) this report provides an overview of PIR activity through the end of the reporting month. The information is primarily presented in table and chart format with text explanations as deemed necessary. Information is provided in order as listed in Appendix 4 of the Registry Agreement.

Report Index

Section 1	Accredited Registrar Status
Section 2	Service Level Agreement Performance
Section 3	ORG Zone File Access Activity
Section 4	Completed SRS/System Software Releases
Section 5	Whols Service Activity
Section 6	Total Number of Transactions by Subcategory by Month
Section 7	Daily Transaction Range

Section 1 – Accredited Registrar Status

The following table displays the current number and status of the ICANN accredited registrars. The registrars are grouped into three categories:

- 1. **Operational registrars:** Those who have authorized access into the system for processing domain name registrations.
- Registrars in the Ramp-up Period: Those who have received a
 password to the PIR Operational Test and Evaluation (OT&E)
 environment. The OT&E environment is provided to allow registrars to
 develop and test their systems with the PIR Shared Registration
 System (SRS).
- 3. **Registrars in the Pre-Ramp-up Period:** Those who have been sent a welcome letter from PIR, but have not yet executed the Registry Confidentiality Agreement and/or have not yet submitted a completed Registrar Information Sheet.

June 2013

Status	No. of Registrars
Operational Registrars	406
Registrars In Ramp-Up Period	103
Registrars in Pre-Ramp-Up Period	387
Total	896

Section 2 – Service Level Agreement Performance

The following table compares the SLA requirements with Actual Performance for the reporting month. As required by the ICANN/PIR Registry Agreement, PIR is committed to provide service levels as outlined in Appendix 7 of the agreement and to comply with the requirements of the SLA Appendix 10 of the agreement. The SLA is incorporated into the PIR Registry Registrar Agreement that is executed with all operational registrars.

Section 3 – ORG Zone File Access Activity

The following table summarizes the zone file access activity for the current reporting month. As required by the ICANN/PIR Registry Agreement, PIR provides third parties bulk access to the zone file for the .ORG TLD.

Zone file access passwords at the end of the previous month	May-13	935
New zone file access passwords		5
Total zone file access approvals at the end of the reporting month	Jun-13	940

Section 4 – Completed SRS/System Software Releases

As required by the ICANN/ PIR Registry Agreement, The following table shows significant releases that have occurred during the month (it excludes software released only to fix a bug). The PIR SRS is continually being improved to better meet the needs of accredited registrars.
